**17th ANNUAL CASE MANAGEMENT
CONFERENCE 2017**
FOR HEALTH CARE PROFESSIONALS
INTERESTED OR ENGAGED IN CASE MANAGEMENT

Uncertainty *The New Reality*

2017 Case Management Conference participants will actively engage with experts to refine and enhance case management skills relevant to providing services for patients and families in the current environment of uncertainty. Timely topics will include:

- An update on healthcare reform, its proposals and the impact of national and local legislative, regulatory and payment components.
- Current evidence based findings and practice strategies for management of chronic conditions in older adults.
- Moral resilience through ethical decision making and how to use mindful self-compassion tools to benefit clinicians and patients.
- Collaborative strategies to fortify communication between case managers to better ensure adherence to plans of care across the continuum.
- Team approach strategies to manage chronic pain in patients with complex physical and behavioral health needs.

Case studies and interactive strategies have been designed to facilitate the transfer of knowledge to action in your clinical practice. We hope you will join us!

Join colleagues at the 2017 Case Management Conference in this changing healthcare environment and learn practical strategies from nationally recognized experts and providers to care for yourself and those you serve.

Program Outcomes

Upon completion of this conference, participants will be able to:

- Explore national healthcare reform proposals and the implications of legislative, regulatory and payment components on patients and the roles and responsibilities of the case manager.
- Develop moral resilience by learning skills in identifying ethical situations and applying ethical decision-making techniques to problems.
- Identify evidence-based practice strategies to develop plans of care for older adults with complex, comorbid conditions utilizing collaborative care mapping techniques.
- Describe useful tools and techniques for effective communication and collaboration between case managers and interprofessional team members to assure adherence to plans of care across the continuum.
- Improve mindfulness skills and engage in specific exercises to enhance centeredness for stress reduction and application in the healthcare setting.
- Recognize the value of implementing a collaborative case management approach in the management of chronic pain in patients with complex physical and behavioral health needs.

KEYNOTE SPEAKERS

OPENING PLENARY:

Vivian Campagna, RN-BC, MSN-CCM is the chief industry relations officer (CIRO) for the Commission for Case Manager Certification. She has been involved in case management for more than twenty years, holding staff and administrative positions on both the independent and acute care side of the industry. She has published articles on case management topics, presented at case management conferences and taught continuing education courses. Vivian was a founding member of the Long Island chapter of CMSA, and was a member of the inaugural class of certified case managers (CCMs). She is the past Chair for the Commission for Case Manager Certification (CCMC) where she implemented computer based testing, as well as the development of the online dashboard for CEUs and recertification, ensuring test pool questions reflected current practice and knowledge in the field of case management. Vivian earned her nursing diploma from St. Clare's Hospital and Health Center School of Nursing, her BS from CW Post Center of Long Island University, and her MS in Nursing from Seton Hall University. She is board-certified in case management by both the Commission for Case Manager Certification and the American Nurses Credentialing Center.

Steve Fitton joined Health Management Associates as a principal in Lansing, Michigan in 2015. Previously he was Michigan's Medicaid director where he led programs that served over two million residents and the implementation of the state's expansion of Medicaid; Michigan's dual-eligibles demonstration program; and the expansion of the Healthy Kids Dental program to name a few. Steve also served as director of the Bureau of Medicaid Policy and Actuarial Services with responsibility for Medicaid policy development, and a lead role in managing the state-federal relations in waiver negotiation. Steve worked 20 years in Michigan's Children's Special Health Care Services program which arranged and paid for health care services to over 20,000 children with special health care needs each year. With his direction the program implemented a managed care program for special needs children. He is a graduate of Michigan State University.

CLOSING PLENARY:

Leslie Simons, DNP, ANP-BC is an Assistant Professor of Health Programs in the College of Nursing at Michigan State University where she teaches graduate and undergraduate students. In addition to teaching she is an advanced practice provider with Sparrow Pain Center in Lansing, MI where she has practiced since 1999, focusing specifically on adults with nonmalignant pain. Dr Simons began her nursing career with a BSN from Lake Superior State University in 1978. For more than two decades she worked as a staff nurse in the emergency department and then transitioned into a staff nurse role in an adult medical/surgical intensive care unit. Dr Simons received a Master of Science degree from the University of Michigan, became certified as an Adult Nurse Practitioner, and also certified in Pain Management Nursing. In 2014, Dr Simons earned a Doctorate of Nursing Practice from the University of Detroit Mercy, College of Nursing. Leslie continues to engage in scholarship with regional and international podium presentations addressing pain management. She specializes in the management of pain in highly complex older patients with both physical and behavioral health needs.

Cynthia Wolker-Pung, RN has been engaged in nursing practice for more than 38 years with experience in Sparrow's Neonatal ICU and a variety of other clinical units. She has provided case management services to numerous patients over the past 16 years. Currently Cynthia provides case management services to patients in Sparrow's Pain Management Center.
