**Research Interests:**

My research interests include mental health (individual/group psychotherapy), cutaneo-chroma, intra-racial racism, Bleaching Syndrome, and black male Cool Pose concept. My social work research interests extend to four areas in particular. They are as follows: colorism litigation, special populations, and human behavior and the social environment. I intend that these interests provide a means that will be instrumental in the advancement of casework, clinical social work and various aspects of society at-large.

### PhD Chair/Committee member experience

As committee Chair, I administratively guided students in the planning, execution and completion of their dissertations commensurate with a prescribed deadline. I executed the various tasks assigned to committee members and the overall dissertation protocol. I assessed human subject requirements as per university policy and provided editorial comments consistent with the dissertation handbook. As committee member, I provided guidance to students in collaboration with their Chair. In completion of the process, I gave a critique of dissertation drafts for final approval and authorized signatures.
